

HOUSEHOLD HAZARDOUS WASTE

Free, Safe Disposal
of unwanted household chemicals

What is Household Hazardous Waste?

It is any waste produced in the home, which is flammable, toxic, corrosive or reactive. It includes paint products, pesticides and herbicides, hobby chemicals, automotive fluids and cleaning products.

Who Can Participate?

Residents of Genesee, Livingston, Wyoming Counties.

How Can I Participate?

Materials are accepted by appointment at GLOW's annual collection in the fall. You may call the GLOW Office to have your name placed on our notification list. We will then notify you by postcard two months prior to the collection that it is time to register.

Two weeks before the collection you will be sent a packet of information that includes an admittance ticket, directions to the site, safety information and the list of acceptable and unacceptable materials. You must bring your admittance ticket to the collection to give to an attendant.

*See the reverse side for additional information.
Printed on Recycled Paper*
