## ***What is MAT-EX?***

MAT-EX was established in 1992 as a reuse program for businesses in a six county region. Over the years it has expanded to include nineteen counties in Western and Central New York. MAT-EX typifies the adage that “one man’s trash is another man’s treasure.”

Any Individual, business, school or institution, non-profit service organization, or government agency in the nineteen county region may use MAT-EX to locate users for surplus materials previously discarded, or to find free or inexpensive materials.

As MAT-EX has grown some confusion has arisen over what materials can be listed. Following is a checklist that you can use to determine whether your material fits in the MAT-EX Program.

- | Yes | No  |  |
|-----|-----|--|
| ___ | ___ | Is the material a surplus material that is destined to be landfilled or incinerated? |
| ___ | ___ | Is the material non-hazardous?   |
| ___ | ___ | Would you list the material as free or inexpensive?                                  |
| ___ | ___ | Is the material something you would not normally advertise (wanted or available)?    |
| ___ | ___ | Are you willing to track any and all exchanges?                                      |

If you checked “Yes” to all of the above, your material qualifies for the MAT-EX Program. Follow the instructions in the table below to complete a listing or removal form.

HOW TO LIST MATERIALS	HOW TO REMOVE MATERIALS
Review your overstock, off-spec, and byproduct materials to identify those which can be reused or exchanged.	Complete the <b>EXCHANGE/REMOVAL</b> form found at the back of this catalog. Please use a separate form for each listing you are removing.
Review your purchasing needs for items other businesses, organizations or individuals might have available.	If you are removing as a result of an exchange, please include all pertinent information so that exchanges may be documented for waste reduction and reuse purposes.
Complete the <b>LISTINGS</b> form found at the back of this catalog. Please use a separate form for each listing.	
When you find a match, contact the business to arrange an exchange.	

## **Disclaimer**

Information provided through MAT-EX and this catalog is supplied by the listing party. Neither MAT-EX, the GLOW Region Solid Waste Management Committee, the Participating Counties nor any advisor, agent, or employee thereof: Is liable for any information, error, or representation, or makes any warranty, express or implied, as to the accuracy of the information regarding the material, service, or product/equipment offered, including but not limited to its fitness for a particular use; Is responsible for the determination of what may constitute a hazardous substance or create a hazardous condition; Is or shall be considered an agent, partner, or joint venture with parties using this publication. It is understood that all transactions are between the exchanging parties only. MAT-EX reserves the right to not list materials, and to edit information provided by listing party as may be necessary for publication.

## **Transportation and Shipping Information**

MAT-EX: Western/Central NY Materials Exchange was started in 1992 as a waste reduction and reuse program. Its purpose is to keep those materials that are non-hazardous and have reuse value, out of landfills and incinerators. The side benefit of making an exchange is that the person or business who the material avoids paying for its disposal. The listing is not an “ad” and the program is not to be used as a means of making a profit. GLOW and its partners are municipal agencies whose mission is to increase waste diversion by following the State’s hierarchy of waste reduction, reuse and recycling, in that order. Funding for the program is by state grants and county contributions. The practice of asking the person or business taking the material to pay for it is discouraged. When there is a fee involved, it should be nominal and significantly less than market value. Some listers have had calls from people out-of-state, who had seen it on the Internet, and who had asked the lister to pay for shipping. It seems only right that if you are obtaining materials free of charge to you, the receiver should make arrangements for transportation, at little or no cost to the lister. If you are listing materials and this issue comes up, feel free to remind the person of the purpose of this program.

## **Reporting Exchanges**

Reporting exchanges is one of the few things that organizers and “partners” of the catalog ask of people listing in the catalog. Tax dollars fund this program. In this time of belt tightening, Mat-Ex organizers must be able to demonstrate its value. The information you provide demonstrates to public officials that Mat-Ex is a valuable and helpful tool for individuals and organizations throughout Central and Western New York State. It is also used to calculate recovery rates. If you have a listing on Mat-Ex you are contacted three times a year before the new hardcopy catalog is published. Please respond to your Mat-Ex representative when they contact you at these times, or better yet, mail or email the information to us as exchanges are made. An Exchange/Removal is in the back of the catalog. Exchanges can also be emailed or sent to GLOW using the exchange tally sheet sent with the conformation letter when your listing is received.

**Direct questions concerning above issues to Peggy Grayson @ GLOW 585-815-7906**

## Why Use MAT-EX?

The partner counties of the Mat-Ex catalog and the lead agency, GLOW Region Solid Waste Management Committee (see page 1 for the list) would like to remind readers of the importance of using Mat-Ex and other reuse programs. From the municipal aspect these programs help promote waste reduction and reuse in Central and Western New York. From a business standpoint a tremendous amount of time, money and effort can be saved by reducing dumpster pick-ups and costs. From a non-profit and personal standpoint there is some really cool stuff out there waiting to be had. Here, too, is the potential to save a lot of money by obtaining materials at little or no cost. The big picture view is that it is good for the environment because finding a new home for materials reduces the volume of non-hazardous material being land filled and incinerated. Some of the non-profit groups using Mat-Ex include:

- Churches
- Schools and Libraries
- Nursery Schools
- Scouts
- Senior Citizens Groups
- Community Groups
- Youth Groups
- Animal Shelters

Any individual, non-profit, business or club may use the MAT-EX catalog. The only restrictions are that the materials be non-hazardous, ready for disposal and no or low-cost.

The catalog and web site seem modest at first glance, but consider some of the items-unique, irreplaceable and invaluable to those who have received them-that have reached those who have found good uses for them over the years:

- Two barns- 1 in Geneseo, the other in Bloomfield
- A sound-proof booth from a company in Batavia to a church in Louisiana
- Polar fleece scraps to a wildlife rehab program
- Heavy equipment; a baler, a forklift, a GradeAll
- Building materials, including glass blocks, windows, lockers. Paint, and a darkroom door.
- Odds and ends: plastic end caps, hardwood cut-offs, plastic balls (12,000) and wood dowels
- Shipping materials; packing peanuts, plastic bags and shredded paper, pallets and wood packing crates
- Nursery materials; mulch and plastic nursery containers (thousands)
- Office furniture and supplies; including 3-ring binders and pocket folders

Please:

- Use the catalog to find useful materials and find a home for useful materials.
- Spread the word about how the catalog has helped you, your business or your non-profit.

## Reuse-It's Every Where!

Almost anything can be reused, repurposed or remanufactured, including:

- Appliances
- Architectural Salvage
- Art Supplies
- Building Materials and Lumber
- Clothing and Shoes
- Computers
- Fixtures and Fittings
- Furniture
- Home Electronics
- Industrial Discards
- Office Equipment and Supplies
- Sports Equipment
- Textiles
- And so much more

**You can start reusing right away-all it takes is a little extra thought!** From now on, before you buy something, ask yourself “DO I HAVE to buy this? Could I buy it from a local resale ship? Better yet, can I repair what I am replacing, or do I already have something at home that could serve the same purpose?” You’ll be surprised how often reuse is an easy option. For example:

- Surplus moldings are well suited for creating picture frames;
- A used kitchen cupboard is easily transformed into a free-standing linen cabinet;
- A door mounted on the wall horizontally serves as an attractive headboard;
- If you’re the creative type, you can make jewelry, sculptures, mosaics and other art pieces out of all sorts of used materials.

Likewise, before discarding something, think of the potential for its reuse, either by yourself or others. There are all sorts of ways to let others get value out of your old stuff:

- Donate to local non-profit organizations that specialize in reuse
- Host a yard sale – by yourself or with friends
- Sell used items in a local consignment shop or via eBay
- Use online marketplaces like [www.Craigslist.org](http://www.Craigslist.org) and [www.FreeCyclr.org](http://www.FreeCyclr.org)
- See what items Terracycle is collecting at [Terracycle.net](http://Terracycle.net)
- Use Mat-Ex: Western/Central NY Materials Exchange at [www.mat-ex.org](http://www.mat-ex.org)

## **GLOW 2020 Calendar of Events**

The GLOW Solid Waste Road Show is coming to an event near you! In 2020 you can find us at, participating in or holding the following events:

- Hemlock Fair, Hemlock, mid-July, 2020
- Wyoming County Fair, Pike, August 15-22, 2020
- Brick House Corners Fair, Pembroke Town Hall, 116 E. Main St., Corfu, September 2020  
10 a.m. to 4:00 p.m.
- Household Hazardous Waste Collection, mid-September 2020 in Mt. Morris, Livingston County.  
9:00 a.m. to 12:45 p.m. **Appointments required. Call or email starting July 22 to make an appointment.**
- Electronics Collection, mid-September 2020 in Mt. Morris, Livingston County. 9:00 to 12:00 p.m. **Appointments required. Call or email starting July 22 to make an appointment.**

To schedule an appearance at your event contact the GLOW office at 800/836-1154 or 585/815-7906 or Email us at [glow@co.genesee.ny.us](mailto:glow@co.genesee.ny.us) or [pgrayson@co.genesee.ny.us](mailto:pgrayson@co.genesee.ny.us)
